

Emerging Circuits and
Computation (ECC) Group at ITU

Post-Doc positions available within the **TUBITAK** and **European Union H2020** projects, coordinated by our group, on the area of “Circuit Design for Nano Nano Arrays” and “Stochastic Computing”.

- Candidates are expected to have a strong research background on “electronic design automation” and/or “computational nanoelectronics”.
- Check our web site www.ecc.itu.edu.tr for our group and project details.
